EAR BUNTHAV

FULLSTACK DEVELOPER | DESIGNER

PROFILE

I am a passionate and dedicated 4th-year IT student seeking an internship opportunity in web development. I aim to contribute to real-world projects using my React, Laravel, and Node.js experience, while continuing to learn from industry professionals. I'm confident my self-driven projects and strong teamwork background can bring value to your team.

PROJECTS

Figma UI Kit & App Design:
- Designed a full UI prototype in Figma with multiple pages and linked interactions
- Reusable components and responsive layout practices applied

E-commerce Web App (React + Laravel/Express):
- Ecommerce website using React for the frontend
- Built custom APIs using both Laravel and Express
- Integrated PayPal Sandbox for secure checkout
- Features include product filtering, cart, checkout, and receipt management

Admin Dashboard (PHP + MySQL):
- Created a custom admin dashboard to manage products, categories, and users
- Features include statistics overview, CRUD functions, and secure login

SOFT SKILLS

- **Team collaboration & project management**
- **Clear communication & presentation skills**
- **Strong problem solving & task ownership**

EDUCATION

2019–2022 :
Prek Leap High school
2022–2025 :
Royal University of Phnom Penh
